SEEN, HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 4:20

Thank God, August, the damnest month of the 12, is over.

If you want to see a real sight of activity, go to the east end of the incomplete earthern dam, which is somewhat of an observation point, and see that army of tractors, trucks, graders, euclids, rollers, etc., working 7 days a week filling the last gap in the section of this huge earthen fill. It reminds one of a swram of gargantuan "ants" at work. "Pop" Mayhan checks 'em in and out.

Have YOU gone out to see about YOUR lot at Odd Fellows' Cemetery YET? If not, do so.

It seems that Gov. Shivers and Senator Byrd and a lotta big shots were not invited to the $100 a plate Stevenson dinner, but Ed Underwood of Grenada was invited.

Lillian Lilly was reminiscing about having two kids fixing to graduate from college and another one, little John, fixing to enter primary school. Sorter like Jewell Demarco, who has one little girl trying to learn to drive a car, another one being taught how to walk.

Yes, folks do have their paper discontinued like Soldier Cohea, who is about to get back home from Korea or wherever he has been in service.

But, when we lost Soldier Cohea, we gained one in the person of Bro. Sennett, the county agent. Down one, up one.

2 birds with 1 stone: Mrs. Cora Gregory, one of the keystones in the local postal service, and Mrs. Shackelford of Cascilla, free state.

Dont forget Charter Member Gene Pyron over across the river.

Listening to the Baptist program over WNAG Sunday morning, I mentally gathered that somebody or some organization, in the church, had given Brother and Sister Landrum a new car, but details did not come from the broadcast. It seems that the Landrums are doing mighty well with their numerous "sheep" in the Baptist flock.

Monday morning, Sam Wade must have had difficulty in getting in his store's front door, packages and boxes being piled so high on the sidewalk.

Wonder how our Yankee friends, Herb and Billy in Washington, are getting along. Hope they have not joined the FBI. (Fired by Ike)

Wonder how my cute friend, Joyce Brown with Time in Atlanta, is doing here lately?

Brother and Sister O'Briant are mighty spry folks for their ages.

Tuesday afternoon, when both of us should have been working, Wallace Lamon and I sat on the court house curb and talked a lot about many things, none very important.

Many folks may have known the following, but I did not know that: there are left in this county only three white school plants; Grenada, Holcomb and Gore Springs and that all white pupils but a few in the eastern part of Beat Three (who go to the Big Creek School) come either to Grenada, to Gore Springs or to Holcomb; there is a diminishing number of colored schools, though over 30 of them yet; that colored kids eligible for high school training all are hauled into the Grenada colored school.

I have been here all the time and, just the other day, told Dorothy to find out who the teachers at Hardy School were, forgetting that Hardy School had been done away with several years ago and that all white pupils from Beat Four were being hauled into Grenada School.

The other Red Martin - Willie Lee that is, came in Tuesday, paid up and got his paper changed to his new address in Pascagoula where he has bought out a barber shop. Shave 'em close, Red and powder 'em deep. Thank goodness, we have another Red Martin still getting the GCW in Grenada.

I am inclined to think Chas Perry is right about selling meat animals when they are fat. After you get 'em fat there aint much else to do with them but butcher them.

"Good deal more, for a good deal less," Bill Hannan's motto, is a dern good motto.

Our motto, The GCW Gets Around, is no less true and no less appropriate.

About every full moon, I hear a tale that "they" are getting up a petition to do away with the CM form of government here. I heard the tale again early this week. I have never seen any such petition, and, if I did, I would not sign it. In the opinion of many (if not most) of us, we have the best form of government Grenada ever had, so why change back to the old aldermaNiac form?

CARROLLTON - GRENADA HERE IS FIRST GAME

Tentative Lineup For Sept. 11 Game Told

The Grenada High School football team will meet an old rival, N. Carollton High in the first game of the season, at Proby Field, 8 p. m. Friday, Sept. 11.

Coach A. L. Gerrard hasn't quite decided which boys will play which positions and has two or more boys in mind for each position at present. For right guard, the choice lies between Gene Douglass and James Latham; center, Lawrence Litten or Richard Forbes; right tackle, Fred Lickfold, Jr. or Charles Davis;

For right end, James Bailey or J. P. Morrison; for left guard, Gary Waldrop or Andy Pressgrove; left tackle, Jerry Blue or Fred Lickfold; left end, Charles Davis, Paul Gibbs, or William Griffin;

For left halfback, Vernon Bishop or Shaeffer Spence; quarterback, Johnny Goza or Bobby Joe Griffin; fullback, Ray Freeman, Vernon Bishop or Marvin Cutler; right halfback Bobby Abel or Bill Raper.

MT. NEBO COMMUNITY MEETING HELD

Approximately one hundred men, women and children of the Mt. Nebo Community attended the August meeting of their Community Development Organization in the community theatre. Sidney Clark, president, presided.

Mr. E. H. White, County Farm Bureau President, gave a very interesting address on the need for farm organization.

Mr. Gerald Stevens, local Forester, gave an interesting talk on forestry management.

A quizz program on farm topics and current events was conducted by C. O. Sennett, County Agent. The program concluded with a technicolor movie entitled Theres More Thna Money in Trees. The organization meets each 4th Friday night.

Dear Dorothy

I used to do my deepest thinking,
Sitting on some grave yard knoll.
The other day I tried to stroll
On Pine Hill sacred graveyard green.
The grass was up above my knees,
The weeds were growing high.
The red bugs had their picnic,
The snakes were gliding far & nigh
Now this sad state of things
Cannot but make me sigh.
The hill on which our loved ones lie,
Should be a place of city pride.
There used to be a gravel driveway
But now its just a ditch.
I scampered through the weeds,
And finally found the road.
(If I intend to do some thinking,
I'd better get back to my Dog Hill adobe).
Yours as ever,
Melissa White Brown Bassett.

So does Bob Carpenter, a charter member of Valden.

Dont forget D. O. Carlisle.

Rail oddities
A CENTURY AGO, ON A SANDY WASTE ALONG THE NEW JERSEY COAST, A WORLD-FAMOUS SEASIDE RESORT—NOW VISITED BY 16 MILLION PEOPLE ANNUALLY —WAS FOUNDED BY RAILROAD MEN.
THEY LAID OUT ITS STREETS; PLANNED ITS DEVELOPMENT; RAISED THE CAPITAL; BUILT TWO RAILROADS TO THE PLACE.
A TRAIN CONDUCTOR, ALEX BOARDMAN, CONCEIVED THE IDEA OF LAYING BOARDS ALONG THE BEACH BECAUSE PEOPLE TRACKED SO MUCH SAND INTO THE HOTELS AND THE RAILROAD COACHES— "BOARDMAN'S WALK", ATLANTIC CITY'S FABULOUS BOARDWALK.

Grenada County Wildlife League Met At City Hall Tuesday

A pepped-up meeting of the Grenada Wildlife League was held at the city auditorium Tuesday night with over 100 members and potential members present to hear discussions about the proposed camp site to be built on the edge of the Grenada Lake, about to be formed by Grenada Dam, now nearing completion.

Attorney Billy Semmes, who is a member of the league's board of directors, was called upon to explain the prospects of acquiring the long-time lease on the property to be used on Hurricane Point on the lake, and to explain what he thought was to happen in the next session of the state legislature, of which Mr. Semmes is a member, at the next session scheduled for January, 1954.

In general, this organization's purpose is embodied in its name - a wild life conservation league. It wants to conserve game and fish not only for its own members but for the genral public. Its purpose also is to foster conservation of all natural resources, timber, soil and water. It encourages the proper observance of the conservation laws of all kinds, even if its primary purpose is that of conserving game and fish.

At present there is a membership drive. It is worthy of note that Jeweler Daves, a new member, got enthusiastic Monday and got out and signed up about 25 other new members and he set a fine example for others interested in this work and its spread.

The location of the camp, or clubhouse, is tentatively fixed (subject of course to final approval of the War Department) on Hurricane Point which is about 6 miles east of Grenada and about 2 miles north of new No. 8 Highway which, of course, is on the south side of the lake.

A technicolor film, showing fishing in Florida's famous Everglades, loaned by the State Game Commission, was shown to an appreciative audience which contained several ladies interested in the subject of conservation.

J. H. Biddy, Sr., president, presided; Frank Evans, the veep, was most helpful; J. Waring Taylor, a prime mover in the movement, is secretary and treasurer, while the following sportsmen compose the Board of Directors: C. C. Prvoine, Sam Irby, George Wood, W. D. West, E. H. White and W. O. Semmes.

As the GCW has frequently said "Grenada Lake, if properly exploited by this conservation league can be Grenada's biggest industry', with no cost to the local taxpayers."

Join now and become a part of this splendid movement!! Dues are only $3 a year.

Missouri Resident Dies In Grenada

David Burnell, retired Illinois Central Railroad worker, whose home was in Florrissant, Mo. died of a heart attack late Monday afternoon, August 31, 1953 in front of Lickfold Jewelry Store.

Mr. Burnell, 69, and his wife were enroute home from a vacation in Florida. They were registered at the Monte Cristo and had driven up town when Mr. Burnell suffered the fatal attack.

Garner Bros. Funeral Home shipped his remains to the Burnell's hometown in Missouri.

Chamber Committees Making Plans

Committees of the Chamber of Commerce have been working and making plans this week.

Wednesday afternoon, the publicity committee met to work on the narration for the film about Grenada and to run off part of the film. John Brewer is chairman of the publicity committee.

Clayton Carpenter, chairman, and members of the Agricultural Committee met Thursday to discuss the cotton and corn contest and to set a date for the awarding of the prizes.

Mrs. Clifford Marter, a cute little lady from Gore Springs, took out a subscription recently. Welcome, Mrs. Marters. The GCW has a heap of Marters on its list and always has room for another Marter.

Yalobusha Valley Angus Sale Wednesday

A consignment sale of the Yalobusha Valley Angus Association will be held at Grenada Angus Farm Sales Barn next Wednesday, Sept. 9. Fifty registered Aberdeen-Angus cattle and five hundred grades will be sold.

This will be the first sale sponsored by the Association which has headquarters in Grenada and includes Grenada and the seven counties surrounding it.

There will be a "dutch dinner" meeting of the Association in the City Hall Tuesday night, Sept. 8, at 8 o'clock. Anyone interested in the promotion of Angus cattle are invited to attend and join the Association.

Anyone having grade Angus cattle that they would like to consign to this sale may bring them to the sales barn the evening of the 8th or the morning of the 9th and have them consigned by joining the Association.

Anyone expecting to attend the meeting Tuesday night, please contact the County Agent's office so that adequate plates will be available.

Rogers Bell not only has taken over John Haxby's store, but also John's place on our mailing list. John was a charter member.

Mrs. T. B. Rundle of Vicksburg, who got attracted to the GCW by that blank Truman tale, sent in her renewals Tuesday, also good wishes.

Mrs. Blakely Recalls Family History on 100th Birthday

Mrs. Lottie Cox Blakely recalled the early history of her family and that of her husband on the occasion of her 100th birthday which occurred July 28.

At her home in Sweatman, the centennial of her birth was celebrated with all her children, grandchildren and great-grandchildren present. In addition, a number of nieces and nephews attended.

Of the family history, the Blakely's wrote:

"Around 150 years ago Eli Blakely was born in Pennsylvania. He was reared by Quakers and taught the shoemaker's trade. In the course of time, he migrated to North Carolina. Early in life he married Elizabeth Caffey and they joined a covered wagon caravan moving to Mississippi.

"Many were the harrowing experiences they lived through as they crossed the bridgeless streams and slowly made their way over deep, muddy roads.

"They settled in Grenada County and Eli made shoes for the older settlers in this part of the county. The tan vats are on what is still the Blakely home place, one mile south east of old Misterton Post Office.

"To this union were born three sons: Henry, Robert, William Patrick and a number of daughters.

"About this same time, Samuel Cox came from Georgia to Mississippi. He married Minda Furgerson and they settled in Carroll County. To this union were born a number of children. Only two lived to be very old: the late Wesley Cox who has many descendants in Carroll County and Lottie Cox Blakely.

"The late William Patrick Blakely married Lottie Cox in 1869. To this union were born two sons and five daughters: Ida Nell, infant son who died, Willie Hemphill, the late Lula Worsham, Rubie Collins, James Dewitt and Lela Frazier.

At the birthday celebration last month, the children brought a delicious lunch which was spread at noon. Frances Worsham baked a large, beautifully decorated birthday cake.

Late that afternoon Elbert and Louise Collins brought flowers. Mrs. Blakely enjoyed the day very much although she has been confined to her bed 18 months.

The GCW joins her many friends in wishing Mrs. Blakely many more birthdays.

a daughter, Teresa Ann, for Dr. and Mrs. J. K. (Buddy) Avent at Grenada Hospital on Wednesday, Sept. 2, 1953. The baby weighed 8½ pounds.

a little son, Mark Stephen, for Mr and Mrs. Billy Foster of Midwest City, Okla. on August 20. The baby's grandparents are Mr. and Mrs. A. H. Foster of Grenada, and Mr. and Mrs. Ed Lyzotte of Detroit, Mich.

PFC. W. B. LOTT WITH INFANTRY IN KOREA

With the 25th Inf. Div. in Korea - Army Pfc William B Lott, son of Mrs. Fannie Lott, Holcomb, Miss., is now undergoing post-truce training with the 25th Infantry Div in Korea.

Lott, an assistant gunner in Heavy Mortar Co. of the 27th Inf. Reg. has been in Korea since April.

As for me, regarding the city government, I think we have a dern good manager in the person of John McEachin even if he, or any other man in any post of responsibility, can not, does not and does not even try to please EVERY one.

Mamie Rogers gets her name in the paper.

of stalwart character and religious determination, has come to be recognized for various worthwhile things.

Descendants of those sturdy pioneers are among our citizenry today and occupy places of integrity and leadership as they evidence a pride in the accomplishments of the city.

Here we find social, civic and religious objectives, a fine system of schools, beautiful churches, a well ordered city government and plenty of recreational facilities.

Grenada is rich in beauty of location at the confluence of water courses and nestled in the foothills of the highest elevation in the state. Beautiful trees abound and blossoming shrubs exhale a delightful fragrance in the ozone-filled air. Its many well-kept homes on lovely shaded streets, its active business section administered by a fine personnel, its industrial plants affording a lucrative payroll - all are proof of substantial progress.

Some one said: Let me visit cemeteries and I can tell you many of a community's feeling and sentiment" which gives one a point of consideration regarding our town.

Grenada has several burial places, viz: the oldest is immediately east of the Illinois Central Depot where are to be found graves of the earliest families. Another Odd Fellows where rest many more who came later, lived, served and passed on. Adjacent to Odd Fellows on its western side are graves of numerous soldiers, some one hundred and seventy markers placed by efforts of Mr. George Gainer, to note their names etc.

To the north of Odd Fellows are to be found another group of graves of people some of whom were prominent in Grenada's history.

In the Odd Fellows Cemetery a few plots evidencing the pride of families who keep them in immeasurable beauty of marble and shrubbery with seasonal flowers.

But there are others whose ones all have passed over the threshold of eternity leaving none to visit and tend the last resting places.

Simply we care for the appearance of this naturally beautiful spot such we should appreciate the [illegible] services of Mr. Leroy Dear, president of the Cemetery Association, cooperate with him in [illegible] interest and consideration [illegible] necessary, cut dues which of course are fairly nominal, so that when long absent members of families return to visit their family plot, it will not be necessary to push aside dead growth and finally locate a sunken grave with the marker long since leaning or fallen, but be able to point with pride to a well kept God's Acre where no more shall be seen crooked footpaths turn the center of the cemetery, regardless of graves, while the drives and unused for pedestrians, who make of this sacred spot a thoroughfare.

Turn then and look just across the way to another burial place tended and brought to a state of beauty which helps to reconcile one to the separations from loved ones who lie in a temple of silence.

What is done at Woodlawn can be done at Odd Fellows, if sufficient interest and civic pride are manifest.

We can heve better business arrangements and make of this neglected place a spot in keeping with an ambitious, progressive town.

With the Garden Clubs and the Civic League to beautify other places in the city, some activities and leadership could be extended to include this cemetery and justify our much claimed aggressiveness. We can do what other towns are doing if we are really mindful of this, one of the finer things indicating culture and refinement.

In the words of Carlyle the historian and essayist,

"Our grand business undoubtedly is, not to SEE what lies dimly at a distance, but to DO what lies clearly at hand."

Let us consider making a permanent financial arrangement, or endowment plans for keeping Odd Fellows Cemetery as it should be kept.

Using Money

Lesson for September 6, 1953

CAN you use $500?" is the way a loan company begins its circular inviting you to borrow from them at a ruinous rate of interest. Yes, indeed, I can use money, everybody thinks. What a man means by that is: I can think of ways to spend it. Give me a hundred dollars and I can guarantee to get rid of it before night. Give me a million and it may take me longer but I can use it, I can make it vanish. I can swap it in for something else.

Dr. Foreman

But that is not using money. That may be using it, but maybe not. Money can be spent in wise ways or foolish; it can be exchanged for something good or something bad or for really nothing at all. Using money is something more than merely passing it out of your pocket into somebody else's.

• • •

Root Of All Evil

Money is not a bad thing in itself as some have thought. But it can be the root of many bad things. Or to speak more correctly, not money but the love of money is a root of all evils. (Paul does not in the original Greek say THE root; he does say A root.) For example, when a murder is committed and the police are trying to solve the mystery, one of the first questions asked is: Who stands to benefit by this murder?"—meaning, who is going to strike it rich by this crime? Love of money can be a root of murder, theft, adultery, all the sins on the calendar. We could not abolish crime by abolishing money, to be sure. We could not abolish crime by seeing that every man, woman and child had exactly the same amount of money. The sinful heart has many outlets. But love of money, or in other words greed, selfishness, is one of the easiest and most frequent ways by which man's inner meanness comes out in the open.

• • •

Rich Toward God

On the other hand, money makes much good possible. If a man is going to be a "good father," he can't be that if he is a pauper. He doesn't have to be rich, but he does have to have money for groceries and education and all that it takes to bring up children. If a man is going to be a good citizen he will pay his taxes, and if the state is a good state those taxes will be wisely used for the benefit of all. A poverty-stricken state is not a good state to live in. A poverty-stricken home is not the kind of home you want your children to grow up in. Or consider all the good done by the church. Much of it is made possible by the contributions of the members. An orphanage, a hospital, an old folks' home, an evangelistic campaign—every part of the church's activity is something that uses money and transforms it into service and happiness. In Jesus' parable of the rich farmer whom God called a fool, no doubt the neighbors (some of them) admired the man for his wealth and his thrift. "He takes good care of what he's got," they would say. But Jesus did not think well of the man. His trouble was not that he was well-to-do. Jesus never condemned a man simply for owning property, money or anything else. The rich fool's trouble was that he thought of no one but himself, built his barns, for no one but himself. To be "rich toward God" he would have to think about using his wealth for the benefit of some one besides himself.

Bull's Eye

Everybody aims at something in life—everybody, that is, but the aimless, who don't count. We all take aim—but at what? When you pull back the bowstring, or cock the trigger, and look toward the target, what do you see in the bull's eye? What is the very center, the principal aim of living? Some see nothing but the dollar mark. It is a mark that can be hit, and a man's aim can be absolutely accurate. But the trouble with money as a central aim in life, is that the more successful a man is in hitting it, the less satisfied he is likely to be. There are rich people who are happy; but it is not true that a man grows happier with every dollar he adds to his pile; it is not true that the happiest persons in town are the wealthiest. It is generally a fact that if a person is both rich and happy, his happiness comes from other source than his bank account.

4th Annual Lion Oil Scholarship Program

15 College Scholarships

to Southern Students and Teachers for Writing Winning Essays—408 Other Cash Prizes

Lion's 1953-54 Essay Contests are starting right now. Since the Lion Oil Scholarship Program began, 637 prizes worth $65,200 have been awarded to Southern Students and Teachers

FOUR STUDENT CONTESTS IN EACH OF THREE ZONES

For the fourth successive year, Lion Oil Company will provide scholarships and cash prizes in a series of essay contests in a six-state area. This year, the Scholarship Program consists of four contests in each of three zones. In short, there will be *three* scholarship winners in every contest.

The contest is open to all high school students in public, private, or parochial schools in designated areas served by Lion. Under the three-zone system, you compete only against other students in your zone . . . have a better chance of winning.

HERE'S WHAT YOU CAN WIN

If your essay is judged best in your zone, you will win a one-year scholarship worth $1,000 to any accredited college or university you choose. These scholarships are unusual because they cover not only tuition, but also such incidental expenses as laboratory fees, books, room and board.

If your essay is among the next fifteen best in your zone, you will receive a $25 cash merit award. Altogether, the program provides 192 prizes totaling $16,500 for student winners.

YOUR TEACHER-SPONSOR AND YOUR SCHOOL CAN WIN, TOO

If you are declared a first place winner in your zone in any of the contests, your teacher-sponsor will receive $200 in cash. A teacher sponsoring a $25 Merit award winner will receive $25 cash. This year, each Scholarship winner's school will receive a $100 cash award for the purchase of library books.

EASY TO ENTER

All you do is write an essay in 500 words or less, get it approved and signed by your teacher, and mail it to LION OIL SCHOLARSHIP FUND.

The essays will be judged by leading Southern educators. Essays will be rated 60% for interest and originality, 30% for excellence and clarity of presentation, and 10% for neatness. For complete details about the contests, ask your teacher or principal for a free rules booklet, get one from your Lion Oil Dealer, or write the Lion Oil Scholarship Fund.

FIRST CONTEST STARTS NOW

The subject of the first student contest is:

"The Kind of Citizen I Want to Be"

All entries must be postmarked before midnight, October 15, 1953. Subjects for the other essay contests will be announced at a later date and are listed in the Rules Booklets.

DON'T MISS THIS OPPORTUNITY TO ATTEND THE COLLEGE OF YOUR CHOICE ON A LION OIL SCHOLARSHIP.

TEACHERS! **Your essay contest, open now, provides additional cash awards for elementary and high school teachers.**

Three $1,200 Scholarships
Three $400 Cash Travel Grants
Thirty-three $75 Cash Merit Awards

This year, the Program for teachers utilizes the three-zone system and provides more awards. Any teacher, principal, or superintendent teaching in public, private, or parochial schools in designated areas served by Lion is eligible to enter.

For writing the essay rated best in your zone, you will receive a $1,200 Scholarship to the college or university of your choice. The next best entry in each zone will win a $400 Cash Travel Grant. If your essay is among the next eleven best in your zone, you will receive a cash merit award of $75.00.

Here's How To Enter:

Write an original essay in 1,000 words or less on "What are my Responsibilities as a Teacher?" Mail it before midnight February 15, 1954, to Lion Oil Scholarship Fund. Get rules booklet from your principal, your Lion dealer or write the Scholarship Fund.

Student and Teacher Contests Endorsed by State Education Associations and Catholic Diocesan Offices of Arkansas, Mississippi, and Tennessee.

WHY THE SCHOLARSHIP FUND WAS ESTABLISHED

Lion Oil is part-and-parcel of the South, employing more than 2,700 persons with an annual payroll of more than $12,500,000.

Lion Oil manufactures more than sixty petroleum products which keep the wheels of Southern industry, transportation and agriculture spinning. Lion's nitrogen fertilizers enrich the soil of Southern farms . . . help Southern farmers produce more and better crops.

The Scholarship Fund is Lion Oil Company's way of saying, "We believe in the South . . . are eager to assist its sons and daughters . . . our good neighbors. We're proud to be 'Home Folks—Good Neighbors!'"

Town Talk

BY FED ROBINSON

In October, 1924 I was promoted and sent to San Diego, California to be manager of our company's business out there in that wonderful little city. Already there, and installed was Miss McLemore who was to be my secretary. This wonderful lady of about age 50 and by faith a Christian Scientist, taught me some good lessons in the art of living. One day after hearing me address the sales organization in one of those "go-getter" type pep meetings in which I had said, "There is an abundance of success out here for everybody if we are willing to go out and fight for it", Miss McLemore requested permission to give me a little advice. She said something like this: "You are very young for a big job like you have undertaken here, and I heard you say to the men that it would be necessary to FIGHT for the success you are wanting with all your heart, but let me tell you something please, you do not have to fight for ANYTHING in this world if your cause is a good one." I sat there listening because something told me this saintly soul knw sofething I ought to know and so I listened. "God" she said, "has placed all the things we need right into our hands to work with and if we will work hard in faith and truth we will succeed well enough with out fighting for anything."

You can see that statement made a very deep impression on my heart for here I am remembering it after nearly 30 years. I not only have remembered it but I believe it. Recently in our town four men ran for the office of mayor. In the primary election two were eliminated and the other two were left to 'fight' it out. One man had his picture placed on almost every car window in town, had large billboard advertisements, had transcriptinos on the raido several times each day, made speeches everywhere and ran large ads in the paper. The other man was a unique contrast. His speeches were of only a few words, he had tiny little ads in the paper and all he would say was "If elected, I will do the right thing by everybody - I will be the mayor of all the people all time" and when the votes were counted he had more than twice the number his opponent had. We think people are tired of ballyhoo and wild promises and are beginning to see more clearly and understand more fully that after all it isn't at all necessary to FIGHT for success, or to take it away from anyone else, but rather we can all succeed together in any righteous cause and the only fighting we need to do is against the wrong and evil things of the world.

Nothing that grows gives off a more pleasing fragrance than the honeysuckle. But a fine tree or shrub is easily kpilled by the honeysuckle vine because the vine's intensity shuts out all light and sunshine. We thought of this the other morning at church as we sat directly behind a lady and her 10 year old son. The little boy just couldn't sit absolutely still, and what matter, but his mother responded to his every move with a pat on the head and a questioning look. As a matter of fact she was so intently devoted to the boy his every movement ,affected her and we know he is living a life of inhibition as much as if he was enclosed in a fish bowl. What a shame to pamper a nice kid like that.

SEEN, HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 4:20

Mr. and Mrs. Marshall Perry and children have returned from an interesting motor trip to Washington. They took in the famous Skyline Drive in Virginia, visited with Gov. Jimmie Byrnes n Columbia, S. C., saw many of the sights of Washingeon and, in general, had a very rewarding trip. It does folks good to get out and see some of this fine country. After one is dead, one is dead ,a long, long time.

Grenada's 3-star law dropped by to say hello the other afternoon. He and I have at least one thing in common. Both of us are veterans of the 39th Division, World War I.

Indianola paper, please copy. Mrs. Carrier of New Orleans, whom the writer met on the train on a trip to Los Angeles, and two daughters dropped by to see Mabel and me last Friday noon. They were enroute to Indianola where one daughter is wife of the DA there.

Several renewers specicically requested that their names not be mentioned, I hope Susie Lee Chamberlain does not get offended if I say that I got to the cash book with her renewal money.

Mrs. Grimes had a fine feature story in the CA, in re the wedding of the two crippled folks, last Friday. She is quite a good writer.

The Red Martin that is left in Grenada says that Tony Tojo is the best domino player in Grenada.

Echoes from the Past: just looking over our files and saw in an editorial a favorable reference, expressed editorially in our issue of February 6, 1947, of Col. Will Hoffa's offer to donate 30 acres of land for school purposes. The land was located in the southward path of Grenada's steady growth. Cousin Will was indeed a man of vision.

O. R. Gunter seems to be getting what they call a middle age spread.

Did you ever realize, as I did, the tremendous amount of back-stage work necessary in such self-service stores as Jitney Jungle - cutting, wrapping, weighing and pricing such things as cuts of meat and pieces of pre-cut cheese. Those fellows must have to work all night to get ready for the day.

"Jesse James", the picture shown here recently, is always a favorite subject. I just dont know how many times I have seen the picture but will probably see it again at the next opportunity.

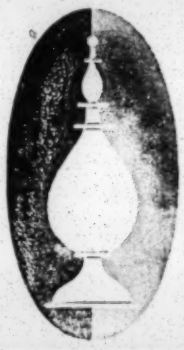
The world's most deadly poison



So powerful a poison is botulinus toxin, the product of tiny bacteria of the species *Clostridium botulinum*, that one ounce properly distributed could destroy the entire population of the Americas. In nature there occur many other deadly poisons, some of which, when properly administered, are extremely valuable in the treatment of disease. Pharmacists are bound by law and professional ethics to dispense dangerous drugs only when prescribed by a physician. Please do not be offended when denied the right to purchase thyroid, penicillin, sulfa, and other drugs. They are dangerous to use except under the supervision of a physician. Never rely on self-medication. The risk involved far outweighs any benefit that may be derived. Always see your doctor.

MEATY SUGGESTIONS

For "dinner in a hurry" CUBED BEEF STEAKS are the homemaker's helper. To serve them differently, bread the cubed steaks. Dip them first in a beaten egg, then in fine cracker crumbs. To cook, place the steaks in a frying pan with lard or drippings. Cover the meat closely and cook slowly for twenty minutes. Then turn them and continue cooking for another twenty minutes or until done.

Let catchup be the liquid for your next BEEF POT ROAST. This lends an interesting flavor to the meat. Brown the beef as usual, then add one cup of catchup. About forty five minutes before the end of cooking, add potatoes to the meat. When cooked, make gravy with the drippings.

For a different BEEF STEW try this. Brown the meat cubes, then season and cover with liquid. Let them slowly simmer for one and one half or two hours. About thirty minutes before the end of cooking, add one cup of frozen lima beans and one cup of whole kernel corn. Cover and simmer until the meat and vegetables are cooked.

Instead of spaghetti, these GROUND BEEF BALLS are cooked and served with vegetables. Brown the balls, then add sliced green peppers sliced onion and celery and one cup of tomato juice. Cover and cook in a 350 degree Fahrenheit oven for one hour. Then remove the meat balls and vegetables and thicken the liquid for gravy.

Prepare this PORTERHOUSE STEAK STAND IN. Mold your favorite ground beef mixture to resemble a porterhouse steak. Have the mixture about one and one half inches thick. Insert the broiler pan in the broiler so that the top of the meat is two to three inches from the heat. When one side is nicely browned, turn and finish cooking on the second side. Plan on about ten minutes cooking time for each side.

Snappy Sandwich Spreads

Always looking for sandwich spreads? Here are combinations ideal for picnics or for "at home" eating. Combine liver sausage with chopped green pepper or celery and mayonnaise and spread on big hamburger buns; mix ground bologna with grated horseradish and mayonnaise; grind canned luncheon loaf and mix with pickle relish; dice leftover roast and combine with diced celery, grated carrots and mayonnaise.

Glazes for Canned Ham

Canned hams are a grand choice for a buffet. Plan on twelve to fifteen minutes per pound in a 350 degree Fahrenheit oven for heating them through. About thirty minutes before the end of heating, remove the ham from the oven and top with a glaze—spread a thin layer of brown sugar over the ham, then drizzle honey over the sugar; combine one cup of brown sugar with the juice and rind of one orange and spread over the top; heat thick fruit preserves for two or three minutes, then spread over the ham. Topped with the glaze mixture, return the ham to your oven for a final thirty minutes of heating and for setting the glaze.

Casserole from Canned Shelf

Chipped beef is the basis for this tempting and economical casserole dish. Prepare two cups of medium cream sauce, then to this add one and one half cups of chipped beef and two cups of canned or cooked frozen peas. Arrange sliced, cooked potatoes in the bottom of a greased casserole. Pour the chipped beef mixture over the potatoes, top with fine bread crumbs, and bake in a moderate oven for twenty to thirty minutes.

CONSTRUCTION UNDER WAY FOR NEW RURAL TELEPHONE UNIT IN LINCOLN

Shown breaking ground for the new rural dial switching unit at Bogue Chitto is F. T. Jordan, on whose land the building is being constructed. Looking on are, left to right: Grady Sargent, Brookhaven Manager for Southern Bell; Mayor W. W. Godbold, Sr., of Brookhaven; Roy E. Hughes, Chamber of Commerce President; Miss Martha Price of Bogue Chitto, Mr. Jordan's granddaughter; Odell Weeks, McComb Plant Manager for Southern Bell; Mr. and Mrs. Jordan; Mrs. Fred Brister, Mrs. Carey Wooley, Mrs. E. H. Price, all of Bogue Chitto; and L. E. Slawson, of Jackson, Rural Development Supervisor for Southern Bell.

BROOKHAVEN—Work is underway at nearby Bogue Chitto, on a building to house the rural dial switching unit which will be an important part of the rural telephone undertaking now under construction in that area by the Southern Bell Telephone and Telegraph Company.

A crowd of interested people from this city and the Bogue Chitto area were on hand for the start of work on the switching unit which will link some 800 additional rural telephone customers to the exchange here.

According to Grady Sargent, local manager for Southern Bell, the telephones to be connected to the new dial switching unit will be located in the Bogue Chitto community; southward along Highway 51 to the county line; in territory extending eastward through the Ruth community into Lawrence county and the Verna and Jayess communities. West of Bogue Chitto, lines will reach through the Arlington and Center Point communities to the Franklin county line.

Cables leading from the exchange in Brookhaven to the location of the new switching unit are being placed and have passed the half-way point between the two places, according to telephone company representatives.

All of the telephones connected to the new rural dial switching unit will be considered part of the Brookhaven exchange. The monthly rates paid by these new customers will entitle them to an unlimited number of calls to any other local telephone connected to the Brookhaven exchange without additional charge.

James M. Phillips, Southern Bell's Mississippi Manager, says the Bogue Chitto undertaking will cost in the neighborhood of $175,000 and is expected to be completed late this year or early in 1954. He says the dial switching unit here will be the 18th one of its kind in Mississippi.

"The big Bogue Chitto job," Mr. Phillips stated, "is part of a record-breaking job of rural telephone expansion by which our company has increased the number of rural telephones in the State from 8,335 to over 38,000 in a little over 7 years."

T. E. Blue blew his horn at the portals of the GCW, got a come-in signal and was put on the list. He has a big lot to do with these disaster loans but, frankly, I did not know that Grenada County, which has the best prospects I ever saw, had any disaster. In thi sera of H-bombs anything less than total extinction should be somewhat of a blessing.

John Vialet, wife and kids, as well as in-law Howard Eads, all of Baton Rouge, came by to see us a few minutes last Sunday as they were enroute home, after a visit to Calhoun City.

See where A. W. Hammons, Jr. has gone back to duty with the Federal Reserve Board in Washington.

And so did Mrs. Cas Heath.

In some recent correspondence with the editor of the McLean County, Ky., paper in Calhoun, Ky., I learned that that county is soon to have a centennial celebration and honor Judge Alney McLean, the man for whom the county was named. I have turned all correspondence over to Cousin Sally Stone Trotter who is an ancestor fiend from way back.

Maybe Grenada County, which will be 100 years old in about 1970, can celebrate its centennial by doing away with the "5 counties in 1 county" set-up.

But, if they keep on perfecting towns, maybe there will be no Grenada County, no Mississippi, no United States, no North America, no world in 1970!!

Tearing down, moving and setting up an old house is more than a notion. Rogers Parker has found in moving the Parker old home from Grayport to a piece of land in the hills above the level of the Grenada Lake. We have found out it takes a lot of money to point and partially restore our old home at Oxberry which had just sat there for about 30 years.

Wonder how Uncle Jim Shaw is getting along over there among those Calhounites?

I noted in the paper from Bruce that there is a world of oil development activity in Calhoun County.

SUMMONS BY PUBLICATION

Since Lewis Marascalco's wife reads the GCW and does not keep it to wrap fish in, Roland Ross, does not get that copy anymore, so came around Tuesday and renewed for himself.

Clint Vance has become a regular nickle-a-week subscriber. He totes it back to Little Texas with him.

Mrs. James McMahon of Cleveland, Ohio, will probably strain her pretty eyes looking for her name, so I had better say she paid up recently.

And, by the way, Dr. Sam Caruthers has been doing a good job of pinchhitting for Rector Fryc at All Saints during the latter's vacation period.

Pam returned to the fold. Brad Dye. Welcome back.

High Pockets proudly reports that he gave Squire Baker a parking ticket. The doughty squire, like we common folks do, merely walked down and paid off.

Joe Menneci, one of our Chicago subscribers, mailed in his renewal recently. The GCW Gets Around.

Items about the Horns: Bet is getting fat and so is Durrow. Mr. J. H. Horn paid his subscription. Effie was strictly on time collecting for the Commercial, as usual. She also paid her GCW dues. Miss Lizzie, as usual is on the job at the elementary school which is mighty crowded.

If, as many wimmen buyers say, prices for groceries ARE high in Grenada, these new and the enlarged grocery establishments should, if competition means anything, bring prices down.

This will serve as Harry Wilson's renewal receipt.

Price Joins Sales Staff Of Cotton Council

Memphis, Tenn. - Robert E. Price, the Mississippi Delta field representative of the National Cotton Council, has joined the Council sales promotion staff in the Memphis office, Ed Lipscomb, sales promotion director announced today.

At the same time, field director

Clifton Kirkpatrick announced that Price, who joined the field staff in 1947, is being placed in the Delta territory by Walter H. Rayner who has been serving as representative for east Mississippi. Rayner now makes his headquarters at Greenville, Miss., while Ernest H. Tucker, the Council's Georgia field man, has been transferred to Starkville, Miss., to assume Rayner's former duties in that territory.

Mr. Kirkpatrick also announced that James O. Jackson has been employed by the council to take over as the Georgia field representative, replacing Tucker in that area.

WORK PROGRESSING ON FFA CAMP

Work on the Future Farmers of America camp is progressing at the camp's site on Grenada Reservoir.

The dam has been completed for the demonstration pond. The right of way has been cleaned out for the roads, the sites have been cleaned off where the buildings will be. Also underbrush has been cleaned up.

Plans and specifications are complete and bids will be asked for soon for the construction of the halls and cabins.

1953 Cotton Crop Predicted Largest In Years

Grenada County cotton experts including W. H. Kirk are predicting that the 1953 yield of cotton will be greater than in many years.

Through Tuesday, 517 bales of cotton had been ginned at the various county gins. Hames Gin at Geeslin Corner had ginned 25 bales; J. L. Townes, Jr. Gin in Grenada, 162 bales; Gary, Hayden and McRee gin of Holcomb, 16; Holcomb Electric Gin, 170; Gore Springs, 165.

Soil Conservation Dist. Commissioners Conduct Study of Water Problems

Commissioners of the Grenada Co. Soil Conservation District met with representatives of various business groups and agricultureal agencies at the Agri. Building, Monday, at 2 p. m., to discuss "water problems with legal implications."

Realizing that the demand on our water resources is becoming greater each year and that a serious shortage may develop in the future unless steps are taken to conserve and regulate the use of water, SCS Commissioners are taking the lead in making a study of water resources and complex water problems confronting agriculture, industry, municipalities, and individuals.

L. J. Doak, chairman of the local Board of Commissioners presided. Attending the meeting were: Extension Service, C. O. Sennett, Donald Skelton; PM&A, Wm. Trammel; F HA, T. E. Blue, Johnnie Wilis; Grenada Bank, Maurice Moore; Board of Supervisors, Ben Sanders; Industry, Eddie Embry, Ben McElwrath; U. S. Corps of Engineers, John House; Miss. Hiway Dept., J. P. Mauney; Vov. Agri., J. S. Hill; SCS, P. R. Daly, Rex R. Blue; MEC, C. H. Calhoon, Sr. Farmers, Gus Hayward; Grenada Co. SCS Dist., L. J. Doak, J. W. Martin, and J. G. Shaw; Miss. Forest Service, Gearald Stevens.

One of Mr. and Mrs. Milliard Tilghman's pretty gals, Alc Dorothy Tilghman at Randolph AB, Texas, is a new subscriber. It requires mighty nearly a full mail sack to get copies of the GCW to Texas.

The always-jolly W. T. "Pop" Costilow came in on the 1st and helped ease our financial tension. He is now living on watermelons brought in by his friends in Little Texas. Eggs, he said, are too high to give away, even to faithful mail riders.

Local Negro Couple Writes To The Editor

Dear Mr. Whitaker:-

Perhaps none of us, the Negroes of Grenada County, have expressed to you how much we appreciate the frank and fair editorials that we read from time to time concerning and-or involving our race, however we are grateful to you for them.

We enjoy reading your unbiased paper. Your ideas, though often humorously stated, are of great importance particularly in relation to the fluctuating political and social patterns of today.

We consider you a spokesman and sincere pioneer for the New South. Your beliefs and ideals bespeak fairness to ALL mankind. We think that the least that we can do is to assure you that we appreciate your attitude.

You can depend upon our subscription.

Ed. Note: while this is the first letter we hae received from appreciative Negroes, Negroes have shown their appreciation in other ways: they take and promptly pay for their papers; they bring small printing jobs for us to do; they are uniformly kind and courteous to us, as we seek to be to them.

According to the request of the writers, we are omitting signatures to this letter.

SOIL CONSERVATION NEWS
(By Rex R. Blue, SCS)

W. C. Jacks, of Holcomb and T. A. Ligon of Elliott, have recently signed cooperative agreements with the Grenada County Soil Conservation District which will assist them in preparing soil maps and sonservation plans for their farms.

Mr. Jacks plans to establish a W-type meadow to handle the water from a cultivated field. The meadow will be approximately 30 feet wide and will be planted to grasses and legumes to slow down the water and pprevent scouring. The grasses and legumes in the meadow will be utilized for hay.

Do you need a stockwatering pond? If so, contact your local Soil Conservation Service workers who will stake out your pond.

Stockwatering ponds have recently been completed on the farms of Clarence Miller, J. W. Willis and Clear Creek Ranch at Elliott.

There is a bumper crop of dallis grass seed this year. Farmers have a wonderful opportunity to establish new areas to this grass by clipping mature seed heads with a mower and disking the seed into the ground lightly. Excellent stands have been established in this manner.

This drought this summer has again pointed out the need for more organic matter in the soil to increase its moisture holding capacity and to prevent the crop from firing. This is especially true on hardpan soils on which plants have shed their leaves or matured too early. Grass base rotations such as fescue and ladino clover will help to add carbonaceous materials to the soil and will last longer than legumes planted alone for soil improvement.

VFW AND AUXILIARY PARTY FRIDAY NIGHT

The VFW and VFW Auxiliary will have a party Friday night, Sept. 4, at their Club house at the Airbase for all veterans and their wives or sweethearts.

Free food, music and entertainment will be features of the program which begins at 7:30.

PTA TO PRESENT TALENT PROGRAM AT DUCK HILL

Duck Hill Parent Teachers Association is sponsoring a talent show at Binford High School on Friday night, Sept. 4 at 8 o'clock.

There will be both local and out-of-town performers. This promises to be a most entertaining event and the public is urged to attend.

Admission is 50c for adults and 25c for school children.

See where Mrs. L. E. Long has moved back from Marks to Woodville, but her GCW will go along too.

"Queen of Forest" Contest At Holcomb Friday Night

The crowning of the "Queen of the Forest" for Grenada County will take place in Holcomb High School Gym Friday night, Sept. 11 at 8.

Mr. W. B. Buchanan, Supt. of Holcomb School, will serve as master of ceremonies and the Hon. Wm. Winter will be an honor guest and speaker. Joy Fite, 4-H club member from Holcomb, will give some vocal selections. Square dance will follow the crowning of the queen.

The first place winner will be awarded $15.00 and second place winner $10. Prize money donated by Mr. J. H. Oliver and Mr. Ed Embry. The queen selected will enter the district contest at Pontotoc Sept. 25.

The entire program is sponsored by Grenada County Home Demonstration Council and directed by Miss Bervil Elder, Home Agent and Mr. Gerald Stevens, Area Forester.

A partial list of the beautiful young rural ladies who will enter the "Queen of the Forest" contest, with their sponsors are as follows:

Patsy Hammons, Lott's Grocery; Barbara Corder, Mrs. Paul Haydens Grocery; Barbara Ann Cunningham, Harris Garage; Joe Ann Ingram, Holcomb Electric Gin; Betty Martin, Betty Joe Mitchell, Barbara Vance, Norma Ray Trusty, Claudine McMahon, Martha Ann Worsham, Elsie Clanton, Joyce McCalop, Betty Vickery, Janie Chapman, Varner's Grocery; Annie Ruth Collins, Dorothy Ingram, Edith Taylor, Jean Smart and Barbara McMahon.

—LIBRARY NEWS—

The Back To School trend is noticeable in the library too. Welcome posters for teachers and students are being made and new books are on display. The children who joined the Reading Riding Roundup can proudly show their horses to their school mates. It is a very colorful and attractive display of work and fun combination.

The noon hour will be open for the special benefit of the country children, beginning Monday, Sept. 7 and the library hours for the winter will be 10—5:30 daily except Sunday.

The county schools have been provided with the first batch of books and are well on their way to getting settled for the year's work. Books for the Colored County Schools have been borrowed from the Miss. Library Commission and turned over to Lola Moore, the Jeans Supervisor. Those loaned fro the City Colored School are in the high school library under the supervision of the English teacher, Marcella Lindsey.

Miss Elizabeth Thomas has made a gift of books to the library. They are Mississippi Provincial Archives, by Dunbar Rowland and Publications of Mississippi Historical Society, val-1-13. These publications cover much of the founding days and reconstruction times in Mississippi and have many interesting incdents of Grenada. Any one who has other issues of this series might like to add to the collection. These books will be placed as a memorial to Mr. and Mrs. J. T. Thomas.

500 Attend Opening Of Singer Center

About 500 people attended the opening of Grenada's new Singer Sewing Machine Center Friday and Saturday.

In charge of opening days were D. B. Smithermaid, local manager, and Mrs. Charles Mangum who will teach sewing skills. Assisting them were: J. C. Adams, district manager, and W. A. Hammonds, manager of the Greenwood Singer Store.

During the two days, Mrs. Mangum demonstrated the machines and their attachments and prizes were awarded.

Mrs. Mack England of Gore Springs won first prize, a hand vacuum cleaner; Mrs. John Mitchell of Gre-

Irrigation by the furrow method from an artesian well, plus good use of fertilizer, did much to account for this good corn crop which Harold Moss (left) of Grenada County is showing County Agent C. O. Sennett of Grenada. The three acres of Dixie 33 were planted in late May, and irrigated over a period of six weeks ending in late August. Mr. Moss fertilized this crop with 400 lbs. of 6-8-8 and 250 lbs. am. nit.

Saving of top bolls, which means more money from cotton, results from poisoning as late as needed to control any cotton insects which may be present, as was done here by B. A. Little (left), who has 330 acres like this in valley soil between the hills and the Delta in Grenada County. County Agent C. O. Sennett of Grenada was checking his crop with him last week when this picture was made. They counted 119 bolls and three blooms on this single stalk. This cotton is DP&L 15, fertilized as recommended for the area.

20TH CENTURY CLUB MET

The Twentieth Century Club members met at the handsomely appointed home of Mrs. J. H. Oliver Tuesday afternoon at 3:30 with Mrs. J. O. Oliver as cohostess.

The reception rooms of the home were beautifully decorated with garden flowers. White clematis and white altha blossoms combined to make lovely arrangements on a coffee table in the living room and were used to center the handsomely lace draped dining table were refreshments were served.

Other flowers used were Queen Ann's lace combined with white roses, placed on the mantle, and tall vases holding baby's breath, and one crystal vase which held lovely pink radiance roses. The sun room was decorated with rich hued zenias and a vase of lovely golden rod.

After all the guests arrived, they were invited into the dining room where delicious fruit salad and chicken salad sandwiches were served with coffee. Mrs. J. H. Oliver presided at the handsome silver coffee service.

Mrs. G. S. Kent, president, presided, Mrs. Cliff Johnson, secretary read the minutes. Mrs. H. J. Ray, Sr. chairman of club room announced that the club room kitchen has a new stove and a refrigerator

Mrs. Kent made a fine welcoming speech, as is the custom at the first meeting of the club year, and then introduced the two members, Mrs. J. C. Hathorn and Mrs. H. J. Theil, who were on program for the afternoon. The theme was "Poetic Moods Representative of the Program Subject of the Year."

Their discussion of the years program, with descriptions of each program, written in rhyme proved most entertaining to the members, and we hope to present to our readers some of the talent shown by members Hathorn and Theil in the near future.

Members of the program committee of which Mrs. J. H. Oliver was chairman discussed the years program.

Two out of town trips are planned by the club, the first on Oct. 6th when the club with their guests will attend a luncheon and Fashion Show at Lowensteins in Memphis, and late in the club year, on March 16th a trip to Oxford when the club will visit the Mary Buie Museum and the University library.

Next meeting is Sept. 15 at 3:30.

AFTERNOON PARTY

The handsome new home of the Misses Margaret and Katie Cuff was the scene of a lovely afternoon party Monday afternoon at 4 o'clock when they ntertained in honor of Mrs. C. L. Lomax of Greenwood, the former Miss Annie Faye Dubard of Grenada, who is visiting relatives here.

The reception rooms were decorated with bowls of asters, roses and zenias in rich autumn colors.

In the late afternoon a refreshment plate holding a sweet salad, wafers, cookies and a cup of orange punch, was served to the following guests: Mesdames Lomax, Lewis Dubard, Sr., John McElchin, Vass Dubard, B. J. Anderson, Willye Y. West, Ward Allen, Ben Brown, Ben Brown, Ben Adams, Sr., Harry Adams, Whyte Whitaker, Joe Brown, Herman Heath, Edgar Underwood, Cowles Horton and G. D. Thomason, and Misses Marion Dubard, Lida Owens and Mary Knox; unable to attend were: Mesdames W. E. Jackson, Hal Rogers, Tom Meek, Lewis Dubard, Jr., and Misses Bird Sharp and Courtney Tatum.

Mr. and Mrs. L. J. Doak spent the past weekend with their sister and brother, Mr. and Mrs. J. P. Fisher in Jonestown, Miss.

...ASY ON THE HEART-STRINGS

By Fed Robinson

The office girl said:

"No, the manager is not in . . . , I do not know where he is . . . , he didn't tell me where he was ing."

It would have been easier on the art-strings had she said:

"No, the manager isn't in the of-ce just now, but is there anything e can do for you - I'm sure he will ppreciate your call. and if it is mething of immediate importan-, I shall be glad to try to locate im for you . . . you will give me our telephone number, please, and will tell him of your call immedi-tely upo nhis return . . thank you."

SEEN, HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 4:20

Items about Oxberry: Gladys Sta-en looks so much better now since he has been what our cook Carrie Jilp called "decreasing". It looks ke Earl Staten will make over 250 ales on about 200 acres; Coot Lit-tle got out and sold 12 bales of cot-ton by Saturday; Bohannon Kincaid is up to his neck picking his fine crop; Richard Carver has the best cotton crop I ever saw on Ed Hol-comb's place; the Donley place has never had better prospects; if frost holds off long enough, Dot Hayden will make a bumper crop on the Leloach place; Mabel's 'Hardtimes' plantation has the best prospects ever. It is mighty hard to find a paddler around Oxberry.

Mrs. C. T. Mason, daughter of Mrs. O. L. Whitten of Grenada, liv-es with her sailor husband at some hellacious address in Oahu, T. H. They are hungry to see somebody from Grenada. Anybody visiting there from Grenada should call "Chuck" Mason, Jr. who is a gdyan-ke from Colorado, at Phone Barbar's Pt. 64160. Oh yes, by the way, this lady mailed in her dues last week. She wrote a most interesting note to us.

Asked about the cotton picking geese, Junius Townes geeseherd, Bet Horn, said he not only had to buy corn to feed them, but also had to tote water for them.

I saw Eva Baker, Bryan Baker and their children, Mr. and Mrs. (Elizabeth) Halback at lunch last Monday. All of them looked like as if they were Squire Baker's children.

Last Monday may have been "blue" Monday with others but not for us; we opened a letter contain-ing a renewal check from Florence Ames of Detroit; Henry James from Beat Two brought in three dollars; Mrs. F. H. Neely, of TWL, paid her subscription, and got a new one for another Lamon girl. Mrs. Charles Jarman of Gulfport; Sidney Clark of Big Creek got to be a new getter of the GCW; R. G. Elmore of Arcola back home on a visit paid up; Fish-erman-Jeweler Daves offered to let me have the jeep to take some fri-ends of his to fishing, but I had an appointment with Dr. Jordan. And, please, please, dont forget that Mrs W. R. Schultz paid up. That winds up Monday morning.

And, by the way, Andrew revised the mailing list up to and including last Saturday and, we sincerely hope, that we have got Dorothy (McCrack en) Bradley's Kansas City address fixed up so that Dorothy can be at peace. Those who have paid up, up to last Saturday SHOULD have their dates right on the list.

A postal card from William Joiner informs me that he is in Hot Sprigs getting his feet and ears right clean and sanitary.

Highwayman Wayne Wenger paid his dues last week.

Wonder how Ed Spruill is getting on, and Henry Marter.

Also wonder how Cap Oliver is getting along.

Here's a new one for country newspapermen. Old man Horn, who worked for us a long time, said he knew and worked for a country edi-tor in Georgia who did not have even one piece of 2-pt., or 6-pt. spac-ing material. When he needed to justify a page, he merely set and used another lino slug.

Aint they sweet,

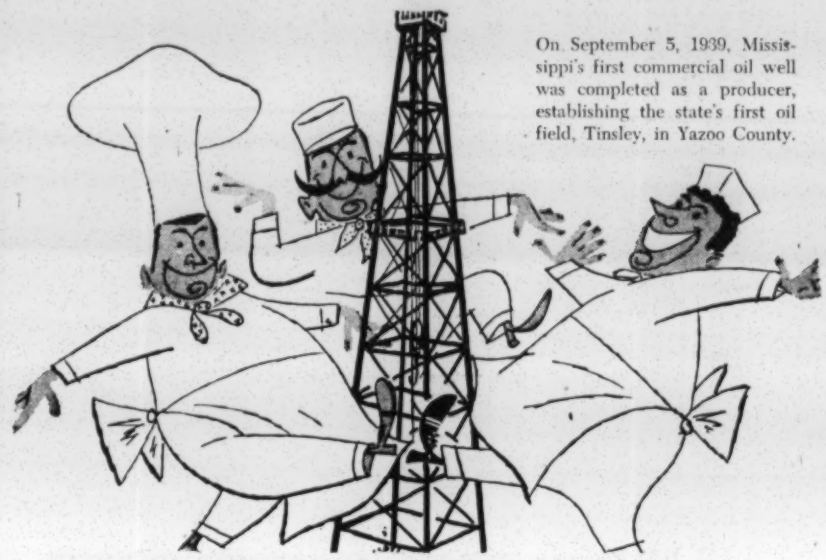
GOT A SUMMER COLD
TAKE 666 for symptomatic RELIEF



On September 5, 1939, Mississippi's first commercial oil well was completed as a producer, establishing the state's first oil field, Tinsley, in Yazoo County.

Butcher, Baker, Candlestick - Maker . . .

In the 14 years since the completion of Mississippi's first commercial oil well, a new and highly productive industry has added ONE BILLION NEW DOLLARS to the state's economy.

To this significant expenditure is being added more than $60 million annually, as Mississippi's oil and gas industry pays wages to its 5000 employees, royalties and lease rentals to landowners, taxes to state and local governments, and as it buys supplies and services from Mississippi businesses.

Oil and gas dollars pass through many hands, ring up sales on countless cash registers in Mississippi. Yes, the butcher, the baker and the candlestick-maker . . . and the banker, the farmer, the laborer, the sales clerk . . . folks in every type of business in every Mississippi county have benefited from the expenditures and productive accomplishments of Mississippi's oil and gas industry.

The enterprising men and companies who have risked a billion dollars in Mississippi have been aided immeasurably in their work by the encouragement of Mississippi people . . . by fair treatment, understanding and a recognition of the importance of oil and gas development to Mississippi's economic growth.

This is the same public and official attitude which more than anything else has focused the attention of manufacturers on Mississippi plant sites. We of Mississippi's oil and gas industry thank our neighbors for their confidence and trust. In such a friendly economic "climate" we find the incentive to expand. We earnestly solicit your continued good will toward our efforts to develop this state's hidden and unused wealth.

You're "sitting pretty" behind the wheel

Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.

You can see all around

You look out and down through a wide, curved, one-piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

And it's the lowest-priced line

A demonstration will show *you* that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

Biggest brakes for smoother, easier stops

An easy nudge on the pedal brings smooth, positive response—right now! Chevrolet's improved brakes are the largest in the low-price field.

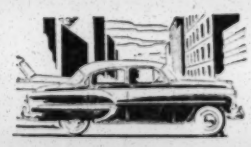
I figure this demonstration saved me many hundreds of dollars!

I expected to pay that much more for a new car until I discovered I was better off in every way with this new Chevrolet!

Let us demonstrate all the advantages of buying a Chevrolet *now!*

CHEVROLET

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!



You get greater getaway with the new Powerglide*

A lot finer performance on a lot less gas. That's what you get with the new Powerglide automatic transmission. There's no more advanced automatic transmission at *any* price.

You get more power on less gas

That's because Chevrolet's two great valve-in-head engines are *high-compression* engines. In Powerglide* models, you get the most powerful engine in Chevrolet's field — the new 115-h.p. "Blue-Flame." Gear-shift models offer the advanced 108-h.p "Thrift-King" engine.

It's heavier for better roadability

You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

**Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.*

Happy Birthday

Fourteen years ago this month, Mississippi's first commercial oil well was completed in Yazoo County and a new industry of statewide significance was born.

This new industry has grown to be one of the state's most important enterprises, and its activities and expenditures have contributed decisively to the economic progress of Mississippi.

Last year, GULF's activities benefited directly more than 7,000 Mississippians. GULF's ten field discoveries and $100 million investment, as well as the 15 million new dollars which GULF currently is adding to Mississippi's channels of trade each year, have produced indirect benefits for many more Mississippians.

The accomplishments of GULF in finding oil and natural gas in this state, like the state's accomplishments in improving its agricultural-industrial balance and establishing a sound basis for future economic growth, are made possible by faith in Mississippi, by a willingness to make large investments in time, effort and money, and by the friendly, cooperative spirit of the people who live here.

"I didn't expect to save money—

...but I did!"

"When I bought my new electric range, I expected to save time and extra effort. I knew I would enjoy better cooking results and more leisure time. But I didn't realize that I would actually save dollars and cents every month. Now, I know that electric cooking is not only *better* . . . it's more economical, too! My kitchen walls stay cleaner and fresher longer. Kitchen curtains need cleaning less often. Also, there's less waste from food shrinkage . . . and no waste of heat in the completely insulated oven. Why not let your electrical appliance dealer show you the advantages of modern electric cooking."

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

I was not only glad to see Hubert Clark, who came down from Yalobusha County to pay his dues, but also glad to see his brother, W. J. Clark. We miss W. J. playing dominoes over at the pool dive. Hubert is one of our charter members.

Mrs. Felts said she might be a little late paying for her papa's (H. P. Mules of McCarley) subscription, but he has not missed a copy. We just knew Mrs. Felts would come around.
